

My attached resume will provide you with a combined background of residential and Institutional enriched knowledge.

I have been successfully worked on an Award-Winning Architectural Company dedicated to high-end custom residences with a variety of distinctive styles such as: Classical, Traditional, Mediterranean, Beach and Cottages, where proportions, material and detailing are thoughtfully studied.

Work on multiple projects simultaneously was part of the day-to-day architectural experience, which I provided excellent time management and organizational skills, as well as good understanding of construction details, materials and excellent skills on 3D modeling and Photorealistic rendering that pleased clients ability to visualize and understand fully the designed product.

On my other hand, I gained five years of experience previously on Institutional projects with design between 22K Sq.Ft. to 200K Sq.Ft. on Police Training Facilities, and Police Stations. Assist from start to completion on every stage of the design process: feasibility studies, programming, Conceptual Design, DD, CD and CA.

I am results-oriented reliable team worker that meet dead lines and fulfill goals with high degree of responsibility and I can quickly adapt to your workflow. I feel confident that I can contribute and be a valuable asset in achieving your company's goals.

If you need further information, please do not hesitate to contact me for Portfolio, recommendation letters or references.

Looking forward to hearing from you at your earliest convenience.

Thanks for your consideration.

Yours Sincerely,

Martin Rodriguez
